

Planetary Procession / Planetary Alignment Feb 28th 2025 7:00PM as seen from Spicewood TX 30°23'14.6"N 98°05'08.1"W

Brought to you by The Spicewood Astronomy Club #3
Spicewood, TX USA, Earth, Sol System, Milky Way Galaxy

8 of the 8 planets in our solar system will be in the sky at the same time.
Mercury, Venus, Earth (just look down), Mars, Jupiter, Saturn, Neptune, and Uranus
Not all will be visible to the naked eye, but they are there. Neptune, Saturn, and Mercury
will not be visible at all due to the sun's glare.
This event occurs over several days with this time and date selected as a representative.
